

CLPSC Explanation This information is entered by the ILCO, and will be provided to the customer via a status document with BU/BW status. If this is a CLSSA requisition, a "1" in RP 72 indicates the item is a programmed CLSSA (on the equity list and within the allocated quantity). A "2" in RP 72 indicates the item is unprogrammed (not on the equity list or in excess of programmed quantities), or lead time for the supply source to augment the CLSSA agreement has not passed. Following is an explanation of CLPSC codes.

1 The lead time necessary for the supply source to augment U.S. stocks to support the CLSSA agreement has passed. The requisition or passing order will be processed and assets released the same as U.S. Forces based on the PD contained in the requisition.

2 The lead time necessary for the supply source to augment U.S. stocks to support the CLSSA agreement has NOT passed, or the country has opted to have this requirement processed as an unprogrammed requirement. The requisition or passing order will be processed as a backorder until the necessary lead time has elapsed or be placed on procurement.

A CLSSA termination/drawdown requisition or passing order. The country desires the ICP/IMM to absorb the materiel. If the ICP/IMM cannot absorb the inventory based on their current requirements, the country desires delivery of the FMSO I quantity reflected in RP 25-29 in existing serviceable or reparable condition. Demand code in RP 44 will be "P" (This code is not applicable to DLA).

B CLSSA termination/drawdown requisition or passing order. The country desires the ICP/IMM to absorb the materiel. If the ICP/IMM cannot absorb the inventory based on their current requirements, the country desires delivery of the FMSO I quantity reflected in RP 25-29 in serviceable condition. Demand code in RP 44 will be "P" (This code is not applicable to DLA).

C CLSSA termination/drawdown requisition or passing order. The country desires the ICP/IMM to absorb the materiel. If the ICP/IMM cannot absorb the inventory based on their current requirements, the country desires delivery of only serviceable assets. The ICP/IMM should take disposition action on the unserviceable assets under applicable Service/Agency regulations. (To be used only on transaction for depot-level reparable or other reparables designated as nonconsumable investment items.) Demand code in RP 44 will be "P" (This code is not applicable to DLA).

D CLSSA termination/drawdown requisition or passing order. The country desires the ICP/IMM to absorb the materiel. The country desires that no delivery of serviceable or unserviceable assets be made. If the ICP/IMM cannot absorb the inventory based on their current requirements, the country desires the ICP/IMM to take disposition action on all assets regardless of condition under applicable Service/Agency regulations. Demand code in RP 44 will be "P" (This code is not applicable to DLA).
